

## SUMMARY PROJECT FICHE

### 1. Basic Information

- 1.1 Désirée Number: **BG 0105.03**  
 1.2 Title: **Participation in EC programmes and agencies**  
 1.3 Sector: AA  
 1.4 Country: Bulgaria

### 2. Description

On the basis of Association Council decisions and agreements, candidate countries may participate in certain European Community programmes and agencies.

The Phare programme can be used to help a candidate country to meet part of the costs of participating in these programmes and agencies. A maximum of 10% of the Phare national programme may be used to co-finance participation in Community programmes and agencies, other than the Research and Development framework programme. Participation in this programme does not count towards the 10% limit.

As from 2001, Phare funds will be made available each year as part of the Phare national programme so as to co-finance the contribution to be paid by each country to participate in these programmes and agencies in the following year. This project fiche for the Phare 2001 national programme accordingly shows Phare co-financing for Bulgaria's participation in Community programmes and agencies in 2002.

The fiche covers only those Community programmes and agencies for which Phare co-financing will be made available. It is not an exhaustive list of the programmes and agencies in which Bulgaria will participate in 2002.

#### **4. Implementation Arrangements**

4.1 The National Fund is responsible for the Phare part of the total contribution to be paid by Bulgaria to participate in Community programmes and agencies.

4.2 Upon signature of the Financing Memorandum, the National Fund will request from the Commission the transfer of the total amount of the Phare co-financing indicated in section 3 above. These funds must be used to pay the Phare part of the total contribution to be paid by Bulgaria to participate in Community programmes and agencies.

4.3 The various Commission services responsible for the different programmes or agencies will send to the Bulgarian Mission to the EC a request for the total contribution for participation in a given programme or agency ("call for funds"). The National Fund should check the amount to be co-financed from Phare funds and then transfer that amount as per the call for funds to the Commission service responsible. When making the payment for each programme, the National Fund should quote the reference number indicated in the call for funds for the programme concerned, and simultaneously send a copy of the payment order to the relevant Commission service.
