## Project

Project	Country	Sector	Partners
<b>Yerevan Energy Efficiency - Phase II</b> Rehabilitating municipal buildings, particularly kindergartens and polyclinics, improving energy efficiency, seismic safety and accessibility	Armenia		
<b>Sustainable energy, energy security and climate resilience in rural areas</b> Alleviating energy poverty, increasing energy security and independence, contributing to climate change mitigation and preservation of natural resources and ecosystem services			
<b>Green buses in Yerevan</b> Enhancing public transport mobility, accommodating passengers with limited mobility, including elderly and disabled and promoting safety for women			
<b>North-South Road Corridor</b> Building of the 24-km Southern section of the Sisian-Kajaran road and of the Bargushat tunnel			
<b>Education Centres in Rural Southern Armenia (Investing in education, notably in the Syunik region)</b> Building of two extracurricular education and teacher training centres in the municipalities of Kapan and Goris in the Syunik region, so to increase the competitiveness of the education system through higher rates of participation in higher secondary education			
<b>Building resilience of the Southern regions</b> Supporting private sector development, skills development, social assistance, and integration of displaced population			
<b>Reform and Comprehensive and Enhanced Partnership Agreement Implementation Facility</b> Supporting the wider reform process in healthcare, social protection and employment, in line with the EU-Armenia Comprehensive and Enhanced Partnership Agreement (CEPA)			
<b>Economic Resilience Facility</b> Supporting economic recovery and resilience by enhancing the access to financing for micro, small, medium-sized enterprises (MSMEs) and mid-caps			
<b>Capital Market Support Programme</b> Supporting local capital markets by providing capacity building and grant co-financing to lower initial transaction costs associated with corporate issuances			
<b>EU4Business in Armenia</b> European Fund for Southeast Europe (EFSE), Green for Growth Fund (GGF), SME Competitiveness, Women in Business (WiB), Nasira Financing Facility, Financial inclusion			

## Project

Project	Country	Sector	Partners
<b>Supporting the digital transport corridor</b> Supporting Aztelekom in the rollout of the broadband infrastructure to more than 280 000 households, improving speed, capacity and bandwidth	Azerbaijan		
<b>Upgrading street lighting in Ganja</b> Optimising and maintaining street lighting to create substantial energy savings and avoid CO <sub>2</sub> emissions			  (*)
<b>Boost for renewables and energy efficiency</b> Boosting renewable energy and energy efficiency through a better regulatory framework, energy efficient solutions, a larger share of renewables in the energy mix, incentives for private investors, and awareness raising			
<b>Greening the port of Baku</b> Enabling resilient, sustainable and integrated development of the port of Baku and supporting the Baku Training Center and the International Cooperation and Project Department			
<b>Currency Exchange Fund (TCX) Credit Line</b> Providing more affordable funding in local currency for SMEs			
<b>EU4Business in Azerbaijan</b> European Fund for Southeast Europe (EFSE)			 
<b>Green transition of local MSMEs</b> Improving the climate change adaptation and response of local communities and micro, small and medium-sized businesses			
<b>Regional and Rural Development Programme</b> Increasing competitiveness and supporting the development of selected Farm to Fork value chains, ensuring social and environmental sustainability at all stages			
<b>Flexible Facility for a stronger economy &amp; structural reforms</b> The Flexible Facility will support progress on the structural reforms necessary for creating a diversified and competitive private sector			
<b>Economic and Investment Plan Facility</b> Accelerating the implementation of the Economic and Investment Plan, supporting institutional capacity and promoting investment opportunities. Support for mine action will also be provided			
<b>Building Health System Resilience</b> Strengthening health policy and governance by establishing a framework for a resilient primary healthcare system – particularly for maternal, child and adolescent health			

\*other ESP donors

Project	Country	Sector	Partners
<b>Agrenefi</b> Providing local financial institution with resources and technical assistance, enabling a more sustainable model of agricultural development	Georgia		  
<b>Zemo Samgori Irrigation</b> Modernising the Zemo Samgori irrigation scheme in East Tbilisi to restore irrigation services and provide the basis for agricultural development in the region			 
<b>Sustainable and Inclusive Irrigated Agriculture Development Programme</b> Among the most important projects supporting the alignment of Georgia with the EU water legislation, modernising the Zemo Samgori irrigation system in order to increase the resource-efficient production of quality agricultural products			 
<b>Log-in Georgia bridging the rural/urban digital divide</b> Designing and constructing a fibre optic telecommunication network at the regional level to connect around 1 000 remote rural settlements			 
<b>EU4 Smart Economic Development</b> Supporting economic recovery with a particular focus on the digital transformation, combined with the "Rural Fibre Network" programme			
<b>Black Sea submarine electricity cable - preparatory work</b> Building a submarine electricity cable system of 1 195 km with a total capacity of 1 000 MW, supporting the development of electricity transmission			 
<b>Energy transmission and regional integration</b> The programme will connect new renewable energy generation capacities to the transmission network and increase power exchanges with neighbouring countries. These investments will eventually feed into the development of the Black Sea cable or other projects aimed at connecting Georgia to the European grid		 	 
<b>Energy efficiency in schools in mountain regions</b> Renovating 15 public buildings to enhance indoor conditions and energy savings			   
<b>Enguri hydropower plant</b> Modernising and renovating Georgia's largest electricity provider. It is the fifth phase of the continued rehabilitation of one of Georgia's strategic electricity generation assets. It includes an element aimed at biodiversity protection			 
<b>Improved air quality for health</b> Reinforcing the capacity to regulate, monitor and analyse air quality to improve air quality for citizens' health			 
<b>Additional financial EU contribution to the Eastern Europe Energy Efficiency and Environment Partnership</b> Supporting high impact energy efficiency and environmental investments at municipal level		 	

\*other ESP donors

Project	Country	Sector	Partners
<b>Water and Health for Georgia</b> Improving water quality in Georgia while addressing relevant environmental health issues. Better monitoring will be achieved by extending the existing network, monitoring capacities and developing data management, as well as by strengthening the health and environment sector capacities to approximate EU legislation	Georgia 		 
<b>Strengthening human capital development</b> Investing in health, education and social protection, unlocking growth potential and improving quality of life for all citizens			  
<b>Implementation of the Deep and Comprehensive Free Trade Area and Small and Medium-sized Enterprise development</b> Promoting inclusive and sustainable growth, improving livelihoods and employment conditions and supporting the business sector			
<b>EU4Business in Georgia</b> European Fund for Southeast Europe (EFSE) Credit Line, Green for Growth Fund (GGF) Credit Line, SME Competitiveness Credit Line, Nasira Financing Facility, Women in Business (WIB) Credit Line			
<b>Enterprises Outreach Initiative</b> Supporting local private sector development, in particular small and medium-sized enterprises			 
<b>Access2Finance Initiative</b> Enhancing access to finance for SMEs, especially start-ups, youth- and women-led businesses			 
<b>Financial inclusion programme</b> Providing support to SMEs focusing on staff training and skills development, accompanied by loans			 
<b>Improving transport connections in the Black Sea</b> Developing new ferry/feeder services and refurbishing ports, promoting trade and facilitating movement of people			
<b>Improving road safety along the East-West Highway</b> Enhancing physical road safety, providing engineering services and awareness-raising actions

## Project

Project	Country	Sector	Partners
<b>Green transition for resilient energy systems</b> Enhancing awareness, building capacities, and encouraging investments in a low-emission and resource-efficient economy for a transformative green agenda	Republic of Moldova		
<b>Balti district heating</b> Modernising district heating services, reducing consumption of natural gas and coal resulting in significant energy efficiency improvements			
<b>Chisinau district heating</b> Improving district heating infrastructure, reducing fuel consumption and promoting the system decarbonisation, resulting in enhanced energy security and affordable domestic hot water supply			
<b>Energy Efficiency Programme</b> Improving insulation of buildings, installing more energy-efficient lighting, heating, cooling and ventilation systems, integrating renewable energy sources and introducing efficient energy management practices			
<b>Energy efficiency in health care and educational institutions</b> Providing energy efficiency improvements in 11 healthcare and education institutions, including improvements of the heating systems and installation of photovoltaic systems			
<b>Moldovan Green Transition Technical Assistance Facility</b> Support the implementation of the green transition reform agenda and the implementation of EU legislation			
<b>Moldovan Residential Energy Efficiency Fund</b> Supporting the Moldovan Government to reduce gas consumption, decrease CO <sub>2</sub> emissions and modernise the housing sector			
<b>Energy Efficiency in Social Housing</b> Converting 32 existing buildings into social housing, with substantial investments for energy efficiency improvement and renewable energy production			
<b>State and Resilience Building Contract</b> Reducing the impact of increasing energy costs on citizens and energy poverty of the most vulnerable citizens through targeted policy measures			
<b>Additional financial EU contribution to the Eastern Europe Energy Efficiency and Environment Partnership</b> Supporting high impact energy efficiency and environmental investments at municipal level			
<b>Solid Waste Programme</b> Modernising municipal waste management infrastructure and services for more than a half of Moldova's population with focus on public health, circular economy and climate			
<b>Improving the enabling environment for sustainable food systems</b> Enhancing sector monitoring, data management and efficient administration of agriculture and rural development funds			
<b>Improving public transport and street lighting in Balti</b> Providing 22 battery-powered trolleybuses and modernising the street lighting system of six priority streets			

\*other ESP donors

Project	Country	Sector	Partners	
<b>Moldova Forest Development Programme</b> Improving forest governance, strengthening the regulatory framework and contributing to the National Forest Extension and Rehabilitation Programme, which aims to expand Moldova's forest area by 145 000 hectares	Republic of Moldova		 	
<b>Sustainable food systems</b> Reinforcing the sustainability and competitiveness of the agricultural sector, contributing to farmers' resilience to external shocks and crises				
<b>Improved quality, equity and relevance of education and labour market</b> Improving quality and relevance of education and lifelong learning opportunities for all, matching the labor market demands. Improving access to more and better employment opportunities				
<b>Strengthening the State Labour Inspectorate</b> Strengthening the capacity of the State Labour Inspectorate to conduct controls and monitor the labour market			 	
<b>Supporting vulnerable Moldovans and Ukrainian refugees</b> Providing high-quality child protection and access to social services and healthcare services				
<b>Trade facilitation capacities of the Moldovan Customs Service improved</b> Development and Implementation of the National Transit System (NTS) of the Customs Service of the Republic of Moldova, compatible with NCTS Phase 5 (NCTS-NTS)				
<b>Support to Invest Credit Bank</b> Supporting the local bank through The Currency Exchange Fund (TCX) to boost lending to borrowers usually considered as risk, like youth and women			 	
<b>EU4Business in the Republic of Moldova</b> EU4SMEs, European Fund for Southeast Europe (EFSE), SME Competitiveness, Green for Growth Fund (GGF), Facem Fund, MSMEs Platform				
<b>EU4Moldova: Startup City Cahul</b> Fostering partnerships for innovation and entrepreneurship among private sector entities, governmental bodies, and educational institutions in Cahul				
<b>Improving rail infrastructure and rolling stock</b> Modernising and improving both railway network and rolling stock by acquisition of 11 mainline diesel locomotives and rehabilitation of selected rail sections			 	
<b>Roads rehabilitation</b> Upgrading and rehabilitating road sections as part of the extension of the TEN-T Core Network and implementing road safety measures			 	
<b>North-South Railway Corridor</b> Rehabilitating the Valcinet-Ungheni-Chisinau-Cainari rail corridor, boosting trade and economic development, as part of the EU-Ukraine Solidarity Lanes initiative			  	
<b>Connecting Europe Facility – Border crossings with Romania</b> Modernising transport infrastructure at the road border crossing points Ungheni, Albița-Leușeni, and Reni-Giurgiulești-Galați				

Project	Country	Sector	Partners
<p><b>Support to small farms for food processing and food safety</b> Sustaining the production along specific agricultural value chains and improving small-scale agricultural producers' profitability</p>	 Ukraine		
<p><b>Grain Storage and equipment</b> Financing grain silos, purchase of new agricultural machinery and grain freight railcars, creating 1 100 additional permanent jobs and 300 jobs during the construction and supporting 15 to 20 SMEs</p>			 
<p><b>Digital Emergency Response Services</b> Targeting modernisation of the Public Protection and Disaster Relief networks, rolling out of a nationwide 112 emergency call system (police, ambulance, fire brigades and gas emergency teams)</p>			 
<p><b>Upgrading IT and physical infrastructure at border crossings with the EU</b> Facilitating purchase of cargo scanners and hand-held x-ray scanners</p>			
<p><b>Renovating the administration's IT infrastructure</b> Providing cybersecurity and data security related ICT softwares and hardwares, providing critical infrastructure protection and civil protection and telecommunication equipment</p>			
<p><b>Emergency Cybersecurity Support</b> Supporting secure data exchange, protecting critical infrastructure and government data and enabling the Government's IT staff through the support of the E-Governance Academy of Estonia</p>			
<p><b>JASPERS – Joint Assistance to Support Projects in European Regions</b> Integrating Ukraine in the programme, providing advice and technical training to national, regional and local authorities to maximize social and environmental impact of EU-funded projects</p>			 
<p><b>Energy efficiency fund contribution</b> EU contribution to the Multi-Donor Trust Fund managed by the International Finance Corporation to co-fund thermal modernisation of multi-apartment residential buildings. More recently these funds were also used to repair war-damaged buildings</p>			
<p><b>Support to electricity transmission</b> Funding Ukrenerg, the country's electricity transmission company, to keep electricity running during the ongoing conflict, thanks to a guarantee from the EU</p>			   
<p><b>Additional financial EU contribution to the Eastern Europe Energy Efficiency and Environment Partnership (E5P)</b> For the Ukraine window, the EU supported energy efficiency projects (thermal renovation of public buildings, renovation of district heating, energy efficient street lighting and public transport), as well as modernisation of solid waste management and water supply and sanitation</p>			 
<p><b>Energy efficiency in Dnipro</b> Refurbishing public buildings, including schools and hospitals, to improve energy efficiency and introducing better heating systems, transport, as well as modernisation of solid waste management and water supply and sanitation</p>			 
<p><b>Ukraine Energy Support Fund at the Energy Community Secretariat</b> Addressing urgent needs of Ukrainian energy companies, enabling repairs to critical infrastructure and maintaining energy and health supply</p>			

Project	Country	Sector	Partners
<b>Energy efficiency in Kyiv</b> Improving energy efficiency and heating in public buildings, saving 694 tonnes of CO <sub>2</sub> emission and 8 274 MWh of energy	Ukraine 		 
<b>Energy Efficiency in Public Buildings</b> Improving energy efficiency in administrative buildings, schools, kindergartens, cultural buildings and hospitals, focusing on integration of small-scale renewables			 
<b>Two pilot projects on hydrogen transport and storage</b> Assessing the relevant infrastructure to transit and store hydrogen as well as the development of technologies related to renewable hydrogen, sustainable biofuel and sustainable aviation fuel			
<b>Green biofuels</b> Contributing to energy security and energy sector's decarbonisation by building a domestic source of biofuel supply with 70% lower greenhouse gas emissions compared to traditional fuel			 
<b>Energy Efficiency Support Programme for Ukraine (EE4U)</b> Restoring damaged homes and municipal buildings and providing energy efficient housing to internally displaced Ukrainians			
<b>Repair of critical infrastructure</b> Increasing resilience of infrastructure and communities through municipal services for heating, water and electricity supply, wastewater discharge and waste management		  	 
<b>Support to Lviv</b> Supporting transport, traffic management, water management, district heating and waste management in the city thanks to EU guarantees		  	 
<b>Resilience – UZ Electrification</b> Ensuring continued and uninterrupted provision of cargo and passenger transportation and evacuation services critical for the affected population			 
<b>Support to Nova Poshta</b> Contributing to the company's long-term development strategy supporting the growth in parcel volumes, optimisation of supply chains, improvement in the quality of service, and resilience during the war by improving the working and safety conditions			 
<b>Support to the pharmaceutical sector</b> Helping Farmak, a pharmaceutical producer, to upgrade IT systems, diversify its product portfolio and increase its export capacity			 
<b>Vocational education and training</b> Creating centers of excellence to improve quality, attractiveness and relevance of vocational education, as part of the EU4Skills programme		    	
<b>Improving access to education and healthcare</b> Providing school buses to take children safely to school and providing state-of-the-art fitted ambulances for different regions

## Project

Project	Country	Sector	Partners
<b>Supporting the EU-Ukraine Deep and Comprehensive Free Trade Area</b> Financing of trade transactions undertaken by private sector companies	Ukraine		
<b>EU4Business in Ukraine</b> Guarantee support for Kredobank, Credit line European Fund for Southeast Europe (EFSE), Credit line SME Competitiveness, Women in Business (WiB), Green Growth Fund, Small Loan Guarantee Program, Support for Ukrainian MSMEs Programme			
<b>Ukraine Economic Recovery Programme</b> Restoring public buildings, roads and bridges, supplying utility like water supply and sewerage to accommodate the influx of internally displaced people			
<b>Helping secure quicker access to affordable loans and purchase the farmland they are cultivating</b> Partial Credit Guarantee Fund provides loan guarantees exclusively to small farms cultivating less than 500 ha of land			
<b>Supporting small farmers</b> Supporting farmers cultivating less than 120 ha or with less than 100 heads of livestock. In 2024 this programme targeted only liberated territories and reached over 34 000 farms in Ukraine			
<b>SME Competitiveness and Inclusion Programme</b> Enhancing access to finance for small and medium-sized enterprises and invest in their production capacity			
<b>Investing in Ukraine's recovery</b> Supporting priority investments in the recovery of areas affected by the war in Ukraine and basic infrastructure needs of internally displaced people			
<b>Solidarity Lanes</b> Ensuring the safe transport of Ukrainian products, as well as import of needed goods, including through upgrading of border crossings			
<b>Urban electric transport in Kyiv</b> Replacing outdated trolleybus, tram and metro fleets to improve the level of transport services in terms of reliability, safety and comfort and reducing pollution, gas emissions and road accidents			
<b>Support to urgent housing needs</b> Restoring, renovating and repurposing existing municipal buildings that can be used to host internally displaced people in the cities of Chernivtsi, Chortkiv, Ivano-Frankivsk, Khmelnytskyi, Kivertsi, Kovel, Lutsk, Rivne, Zolochiv and Zviahel			
<b>Municipal Infrastructure Development Programme</b> Supporting water and sanitation investments, rehabilitation of water supply and sewage infrastructure in the city of Chernivtsi			
<b>Municipal Grants – Resilience</b> Adapting public buildings in some Ukrainian municipalities to host internally displaced people			

## Project

Project	Country	Sector	Partners	
<b>EU4Digital in the Eastern Neighbourhood</b> Reducing roaming tariffs, developing high-speed broadband, expanding e-services, supporting e-logistics and e-health, enhancing digital skills and creating digital jobs	Regional			
<b>EU4Innovation East</b> Enhancing the maturity and sustainability of the start-up ecosystem, promoting convergence with EU market and providing targeted support in the digital tech sector				
<b>Environmental resilience and maritime safety in the Black Sea and the Caspian Sea</b> Promoting a coherent, effective and uniform implementation of international standards on maritime safety and security in the Black Sea basin				
<b>EU4Climate Resilience</b> Helping countries to green capital markets, pilot test climate adaptation and resilience projects and strengthen legislative frameworks			 	
<b>EU4Green Recovery East</b> Promoting circular economy, reducing pollution with a focus on water, supporting alignment with the EU's green transition, promoting institutional cooperation and compliance with international commitments				
<b>EU4Environment</b> Strengthening environmental policies, data and governance and investment planning, capacity for circular economy and the management of water, protected areas and forests		    		          
<b>Supporting the pharmaceutical sector</b> Supporting the production of pharmaceutical products of Farmak, a leading manufacturer, and improving access to essential medicines for people living in Ukraine				 
<b>Fair access to COVID-19 vaccines</b> Support to the global vaccine initiative, COVAX, to ensure equitable access to successful vaccines against COVID-19				 
<b>Improving Cyber Resilience in the Eastern Partnership countries</b> Supporting the development of a strong legislative framework to implement the Budapest Convention on cybercrime, enabling efficient regional and international cooperation, and improving public/private cooperation regarding cybercrime and electronic evidence. Developing technical and cooperation mechanisms that increase cybersecurity and preparedness to cyber attacks				
<b>EU4Gender Equality – Phase II</b> Addressing root causes of gender inequalities and promoting gender transformative change through policy development and promotion of men's role in caregiving				
<b>EU support for vaccine deployment in the Eastern Partnership</b> Rapid and safe deployment of COVID-19 vaccines and strengthening of routine immunisation systems.				
<b>Investing in skills</b> Strengthening education systems to improve equity, gender equality, quality and relevance of education systems				

## Project

Project	Country	Sector	Partners
<b>Structural Reform Facility</b> Promoting sustainable and fair economic growth models, leading to increased investments and better socio-economic conditions and job prospects for citizens	Regional		 
<b>Education infrastructure improvement</b> Modernising education facilities, including kindergartens, primary, secondary and vocational schools, and providing Information and Communications Technology equipment			
<b>Supporting Education Reforms and Skills in the Eastern Partnership region</b> Contributing to improved efficiency, quality, relevance and equity of education in the Eastern Partnership countries			
<b>EU4Business in the Eastern Neighbourhood</b> Nasira Financing Facility, Small Loan Guarantee Program (SLGP), SME Competitiveness Programme, EBRD Local Currency, Women in Business (WiB) Phase II, DCFTA Initiative East Guarantee Facility, Green for Growth Fund (GGF), Structural Reform Facility (including IMF Strengthening Fiscal Governance Phase II), Advice for Small Businesses – EaP window, European Fund for Southern East Europe (EFSE), EU4Business Guarantee, MSMEs Outreach Support Programme for South Caucasus, Direct Finance Facility			    
<b>Support to Bank Republika and Invest Credit</b> Supporting the local bank through The Currency Exchange Fund (TCX) to boost lending to borrowers usually considered as risk, like youth and women			   
<b>Small Businesses Outreach Initiative</b> Providing funding to smaller financial intermediaries in countries of the Southern Caucasus to reach out to micro, small and medium-sized enterprises that currently face difficulties to access finance			 
<b>Producing sustainable vehicles</b> Financing Winner Group, a leading Ukrainian importer and retailers, focusing on green transition and circular economy, including through electric vehicles			 
<b>Participation of Georgia, Republic of Moldova and Ukraine in the Transport Community</b> Supporting the participation of Georgia, Moldova and Ukraine as permanent observers to the Transport Community and their compliance with the EU transport standards, in view of the enlargement process and to associate them more closely to EU's transport market			
<b>Facility for Eastern Partnership Investment in Connectivity (EPIC)</b> Offering to the countries in the region free advisory support and technical assistance to prepare and implement viable connectivity investment projects related to the extended TEN-T network			  
<b>Urban Project Facility in the Eastern Neighbourhood</b> Addressing urban challenges in Armenia, Azerbaijan, Georgia, Republic of Moldova and Ukraine with a common strategic vision for sustainable urban development			  

## Project

Project	Country	Sector	Partners	
<b>Improving road safety</b> Providing the required support to promptly and efficiently advance towards reducing road traffic injuries through data collection and policy development support	Regional			
<b>Strengthening air transport connections</b> Upgrading regulations and working practices to reach compliance with the aviation regulatory requirements of the Common Aviation Area Agreements (CAAA)				
<b>Strengthening Environmental Resilience and Maritime Safety for Black and Caspian Sea riparian States</b> Promoting consistent implementation of International Maritime Organisation Conventions and European standards in the field of maritime safety and security, prevention of pollution from ships and maritime environmental issues				
<b>EU4Energy Phase II</b> Facilitating the approximation of the legal framework to EU energy regulations. Facilitating the development of new legislative acts, roadmaps and strategies as well as capacity building of Ministries and national regulatory authorities				
<b>EU4Energy Phase II+</b> Support for the functioning of electricity systems of Ukraine and Moldova after the synchronization with the European synchronous area. Facilitating the development of renewable energy in Ukraine, Moldova and Georgia. Supporting the management of the Ukraine Support Energy Fund				
<b>Conditions and obstacles for the development and integration of renewable energy sources in the Eastern Partner countries</b> Assessing the potential for the development of renewable energy in Eastern Neighbourhood countries with a breakdown on different sectors of the economy withing the timeframes of 2030 and 2050				
<b>Support to Implementing the Adapted Governance Regulation in Eastern Partnership countries</b> Support of Georgia, Moldova and Ukraine in the reporting of energy sector related data in line with Governance of the Energy Union Regulation, adapted in the Energy Community
