

The **EUROPEAN CRADLE** project financed by

Hungary-Slovakia-Romania-Ukraine
ENPI Cross-border Cooperation Programme

Two hospitals in Mukachevo, Ukraine and in Kiszvárda, Hungary, work together at addressing a particularly high rate of infant mortality in this border region.

Thanks to the European Cradle Project, more than 800 infants and their mothers are annually treated and looked after in the 2 hospitals.

The **EUROPEAN CRADLE** project financed by

"... This baby would not have survived if it had not been for the increased knowledge of medical staff and new instruments purchased by this project."
